

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and cleans, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

DEL RIO SCHOOL CHILDREN PARADE AND PLEDGE MONEY FOR RAILROAD

Del Rio, Tex., March 3.—Railroad business has been hampered by the fact that the community for the past several weeks culminated in a mass meeting at the courthouse, the like of which has never before been seen in Del Rio. In the afternoon a patriotic parade was formed at the schoolhouse and included every school child, not excepting the kindergarten, the young women of the city in automobiles, the business men of the town, all headed by a brass band. The floats upon which the school children rode were decorated with banners bearing all sorts of patriotic expressions regarding the Orient railroad, the children were supplied with flags, and the vehicles were decorated.

Every place of business in the city was closed during the meeting and result was the largest meeting ever held in the town.

The school children were massed on the platform and during the program sang the national hymn and other songs, with specially prepared verses bearing on the bringing of the Orient railroad to the city.

Each school child of the high school has pledged \$1 to the bonus fund and the money is being earned. Five girls members of the 10th grade have earned \$20 by selling candy. The girls of the 11th grade served lunch at the mass meeting and made about \$50 for the fund. It is expected that the school children of the city will donate at least \$500 to the fund and every dollar of it will be earned.

Entertainments of various kinds are planned and the spirit that has been injected into the proposition by the work of the scholars is having an influence that cannot be compared with any other movement so far produced.

In the town the mass meeting and the matrons and young folks of the city are still at work.

COLD STORAGE FOR CARLSBAD

Rruit Trees in Pecos Valley Are Building—Big Acreage in Cotton.

Carlsbad, N. M., March 3.—Geo. Fowler, proprietor of the Model Meat Market has completed the arrangements for the installation of a cold storage plant in his place of business which will be the initial step in that direction in this part of the valley. It will be of sufficient capacity to store eggs and country products for the fall and winter markets, in addition to the demands of his business. The machinery has been ordered and the work of installing the refrigerator will begin at once.

At the adjourned session of the county commissioners' court it was ordered that the county assessor assess all real estate in the county at one-fourth of its former value, which will materially increase the rendition for the coming year.

Rev. W. L. Enefer, of Canton, Kas., has purchased a tract of 40 acres of watered land in the valley and is making some home here. He will fill the pulpit of the Christian church each Sunday.

L. W. McCray has traded his farm south of town for oil land in Kansas. The consideration was \$3500. Mr. McCray purchased an alfalfa farm four or five miles south of town about two years ago, but has been compelled to seek a lower altitude on account of his wife's health.

One of the most interesting meetings ever held in the valley of the Farmers' institute, was held at Malaga. There was a large attendance of the farmers of the valley present and a most entertaining program was rendered. C. H. McNamehan of this city delivered an address which pertained to the relation of the local merchant to the farmer. The discussion which followed was a spirited one and brought out many points of vital importance. A basket dinner was served by the wives of the members.

Fruit Trees Budding.
The warm weather of the past few days has started the fruit buds to swelling and unless a sudden change in the weather prevents another day or two will see all of the fruit trees in this part of the valley in full bloom. The farmers are already preparing the ground for planting. A large acreage of cotton, one of the staple crops of the lower valley, will be planted. It has proved to be one of the best producing crops in this section, yielding from three-fourths of a bale, on the poor land, to one and one-half bales on the better land.

The sacred concert rendered by the band in the court house square was enjoyed by a large number of Carlsbad music loving people. The music was especially good and shows the rapid progress which is being made by the band under the leadership of its new director, Prof. Joe Bunch, who recently came from Abilene.

A letter received in this city from H. A. Houser, the ex-cashier of the National Bank of Carlsbad, dated in Honolulu, states that he is enjoying a pleasant journey on his tour around the world. Mr. Houser and J. R. Joyce, the president of the First National bank of this city, are both making a tour of the world. Mr. Joyce has been abroad for the past six months, having gone by way of the eastern route. When last heard from he was rapidly exploring himself in the wilds of Africa looking the scenery of the upper Nile.
